

FOR IMMEDIATE RELEASE

ROCHESTER AREA BAND RETURNS FROM LOS ANGELES:
WELCOME BACK CONCERT AT MONTAGE MUSIC HALL

Rochester, NY - November 9, 2007

HADLOCK, one of Rochester's most electrifying rock bands for more than six years, has returned from Los Angeles! The band was in Los Angeles this past month working with Grammy® award-winning producer Bob Kulick (Motorhead, Kiss, Meatloaf and many others) to enhance their unique blend of contemporary and 80's arena rock.

HADLOCK will be headlining a welcome-back concert at the Montage Music Hall on Chestnut Street in downtown Rochester on Saturday November 24th.

The other bands performing at the show are DILF (www.myspace.com/dilfband), a high energy cover band that gets people dancing, and Lethal Injection (www.myspace.com/lethalinjectionrocks), playing your favorite heavy metal tunes. Tickets are only \$5 at the door. Concert begins at 9pm. Drink specials start at 8pm.

The band is sounding better than ever, and this show will have people on their feet from start to finish. Everyone in Los Angeles is talking about the high energy charisma of front man Kris Hadlock and the fresh sound of the band. This show is a preview of what you will be hearing on the radio next year.

Kris Hadlock, the former drummer for Chesterfield Kings, formed HADLOCK in 2001. In addition to Kris Hadlock on lead vocals and rhythm guitar, band members include: Richie Roccisano on lead guitar and backing vocals, Robert Maslin on drums and vocals, Liam Renner on keyboards and vocals, and Ron Lee Brock on bass guitar and vocals. All of the band's music is original and written by Hadlock and Roccisano.

Information and updates about the band can be found at www.hadlockrock.com and www.myspace.com/hadlockband.
